TIME CERTAIN

Introduction of an Ordinance amending Chapter X, Article 1 (Planning and Zoning Regulations), of the San Diego Municipal Code by adding Division 13, Sections 101.1300 through 101.1309 relating to Light Pollution. The amendment is intended to minimize light pollution by regulating outdoor lighting in commercial, industrial and multi-family zones.

(See City Manager Reports CMR-84-366 and CMR-85-303.)

COMMITTEE ACTION: Initiated by PSS Committee on 6/19/85.

Recommendation to introduce the Ordinance. Districts 3, 4, 6 and 8 voted yea. District 5 not present.

CITY MANAGER REPORT: On June 19, 1985, the Public Services and

Safety Committee voted 4-0 to adopt regulations regarding outdoor lighting in commercial, industrial and multi-family zones.

New installations of outdoor lighting are regulated in the following manner: 1) Parking lot and security lighting is generally required to utilize shielded, low-pressure sodium fixtures; 2) Outdoor sales, assembly or repair areas, where color rendition is necessary, may utilize other types of fixtures as long as they are shielded; 3) Lighting for on and off premises signs, decorative purposes and recreational activities must be shielded when feasible and focused to minimize light pollution; and 4) All new fixtures must be provided with automatic timing devices.

Neon tube lighting and low wattage fixtures are exempted and there are provisions for administrative exemptions for unusual installations.

In addition, most outdoor lighting, both new and existing, is required to be turned off from 11:00 p.m. to sunrise.

Exemptions are provided for security lighting and commercial and recreational activities which continue past 11:00 p.m.

It is estimated that over \$80,000 per year would be required to provide staff to actively enforce the 11:00 p.m. "curfew" provision. This expenditure is not recommended. Instead, the Planning and Building Inspection Departments intend to utilize informational notices and form letters to encourage voluntary compliance. The Building Inspection Department will enforce the regulations relating to new installations as a part of their normal permit and inspection procedures.

ITEM-334: (O-85-231) INTRODUCED, TO BE ADOPTED SEPTEMBER 23, 1985

(Continued from the meeting of August 13, 1985 at Council Member Struiksma's request.)

Introduction of an Ordinance approving the Development Agreement.

Proposal to approve the McMillin Scripps Three and Four Development Agreement.

The proposed development agreement would apply to approximately 180 acres in the Scripps Miramar Ranch Community Plan area. The primary purpose of the development agreement is to provide for the funding of public facilities. The owner would agree to pay its fair share of development impact fees for public improvements within the community, including street improvements, traffic signals, a library and fire station. The development agreement is being proposed to meet a condition placed on an approved tentative subdivision map for the property. The payment of development impact fees would be in addition to the provision of public improvements, facilities and services required by the approved tentative subdivision map.

The development agreement would assure the owner that the property could be developed in conformance with Scripps Miramar Ranch Community Plan, the R1-6000 Zone, Tentative Map TM-83-0559.1 and Planned Residential Development Permits PRD-84-0631 and PRD-84-0632 (resulting in a total of 548 residential units) for the 10-year term of the agreement. Additional provisions are included in the draft development agreement.

The property is located between the existing termini of Scripps Lake Drive and Charbono Street, north of the existing termini of Avenida Magnifica and Semillon Boulevard in Zone A-1-10 (proposed R1-6000) in the Scripps Miramar Ranch Community Plan area. The subject property is further described as a portion of Sections 27, 28, 33 and 34, Township 14 South, Range 2 West, S.B.B.M. (Case-85-0071. Scripps Miramar Ranch Community Area. District-5.)

CITY MANAGER REPORT: Last year the State Department of Health Services authorized and City Council approved an experimental sailboat program on two of the City reservoirs. In view of the successful completion of the experimental program, the State Department of Health Services is agreeable to allowing sailboats on City lakes on a permanent basis providing adequate controls are maintained by the City to preclude body contact with the water. Accordingly, the Lakes Recreation Rules and Regulations have been revised to permit sailboating at all open reservoirs. In addition, a section has been added to the rules prohibiting glass containers and bottles at the lakes/reservoirs to reduce injuries and litter.
